Let's prepare for disasters before they occur!

In Japan, June and July are the rainy season of the year called "tsuyu". Japan is also a country with many earthquakes worldwide. In the Kyushu region, a strong earthquake of maximum magnitude seven on the Japanese scale occurred in April 2016. It is called the Kumamoto earthquake. How are you preparing for disasters? Let's prepare for disasters little by little daily so that you do not get into a panic when a disaster occurs. This time, we summarized what to bring when you have to evacuate in the event of a disaster. Prepare things to bring thinking about what you and your family would need.

A checklist of things to bring when evacuating.

~Introducing a Foreign Resident in Nagasaki~

Rassul Kumatov (From Kazakhstan)

My name is Rassul Kumatov. I am a first-year Ph.D. student at Nagasaki University, studying preventive medicine.

I was born in Semey city, East Kazakhstan. The temperature in Kazakhstan varies from - 40 in the winter to plus 40 in the summer. As a part of the former Soviet Union, we speak Russian very well. As a former nomadic country, we love meat very much. Many families buy 20-40 kg of meat, then freeze it and cook it the whole season, usually winter.

I started learning Japanese when I studied at Semey Medical University. My teacher was very kind and patient to show me the beautifulness of the Japanese language. She was an Aikido black belt and visited Japan several times.

My hobby is reading and sports, like yoga and martial arts. Thanks to the internet, one can easily work out at home for free. My favorite writers are Alexander Solzhenitsyn, Fedor Dostoyevski, and George Orwell.

My girlfriend and I love Japanese food and cats in Nagasaki. We were shocked that many cats are calm and relatively fat. Also, their short tails are really cute.

I admire people like Jordan Peterson, a Canadian professor of Clinical Psychology. He states that the meaning of life can be found through responsibilities. To do as much good as you possibly can. I have a feeling that many Japanese people share his ideals. That is why I admire Japanese people and have many to learn from them. I am grateful to my family and everyone who supports me.
